## Features/USPs

Pronocte is an advanced nocturnal supplement for energetic mornings, developed with advanced formula of sustainable plant-based proteins, BCAAs and all EAAs, medium-chain triglycerides & dietary fibres.

This complete advanced formula is lactose free, sugar free, gluten free, soya allergen free & with low sodium. It is available in tasty vanilla flavour.

## Benefits

- It is specially designed for patients with liver disease.
- Suppresses the progression of sarcopenia in patients with liver cirrhosis.
- The BCCA in Pronocte reduces muscle breakdown and promotes protein synthesis.
- It serves as both energy substrate & precursor for other amino acids and promotes protein synthesis.
- Prevents progressive hepatic failure and improves perceived health status.

## Nutritional
